

Topic: **Reservoir Committee Agenda Item 6-1** **2018 Oct 18**

Subject: **Project Development Support Services RFQ-18-04**

Requested Action:

Report and possible direction to staff on the Project Development Support Services RFQ-18-04

Consider concurrence of the staff recommendation to postpone or cancel the evaluation of submittals for Service Area E (Environmental Planning) and Service Area H (Engineering Services).

Detailed Description/Background:

The Authority received nineteen responses to the Project Development Support Services Request for Qualifications (RFQ). At least one of the Statements of Qualifications (SOQ) was submitted in each of the nine service areas included in the RFQ. Some of the SOQ proposed bundling of two service areas.

Staff have completed the compliance review and have found that all 19 submittals are compliant with the requirements of the RFQ.

Considering the limited competition in some of the service area and the potential revisions to the 2019 work plan, staff also evaluated the immediacy of the need to retain each of these services. This combined with only receiving a single submittal in Service Areas E (Environmental Planning) and Service Area H (Engineering Services), *staff recommends that further review and potential award of these 2 service areas be postponed or cancelled* without materially affecting critical work through 2019.

Evaluation panels for each service areas (composed of staff and representative from the Authority and Reservoir Committee with advisors from outside of the Sites participants) are currently evaluating the submitted SOQs. These panels will identify firms to interview. Interviews are planned for the period of October 24 to November 2, 2018. Evaluation panels will then provide their recommendations to the Reservoir Committee of which firm in each service area staff should begin negotiations with.

Prior Reservoir Committee Action:

On August 16, 2018, the Reservoir Committee approved the release of the Project Development Support Services RFQ-18-04.

Fiscal Impact/Funding Source:

None
