

Requested Action:

Receive status update on preliminary participation levels, outreach efforts related to maintaining project subscription in Second Amendment to 2019 Reservoir Project Agreement (Amendment 2) and the process of rebalancing participation.

Detailed Description/Background:**Preliminary Participation Levels:**

Soft call results and participation agreement status have been updated and are included in Attachment A.

Informal discussion has occurred to date with San Joaquin Valley interests that are primarily looking to secure new water supplies to address anticipated SGMA issues.

It should be noted that Reclamation's draft Final Feasibility Report finds that there is a federal interest in the project and federal investment is warranted. This can be considered an expression of interest by Reclamation. It's not yet timely to allocate capacity shares to Reclamation, but their interest is something the Reservoir Committee should consider as it deliberates actions to be taken to achieve full subscription.

Outreach and Rebalancing:

Staff has initiated outreach to existing, prior and new participants in the Sacramento Valley to determine interest in additional capacity. Existing members Colusa County Water District and Westside Water District are in the process of polling for increased participation interest. No prior or new interested parties have stepped forward within the Sacramento Valley at this time. Staff has moved to priority two and three of outreach and will be proceeding to priority four, providing an update at the September meeting.

As a reminder, new and returning participants must be approved for admission according to Section 10 of the Participation Agreement, which includes a 75% weighted approval at the Reservoir Committee and 75% of Authority Board director approval as well as other requirements.

For reference, the approved priority system is as follows:

1. The goal is total Sacramento Valley participation of ~25%. Priority is given to current, prior and new Sacramento Valley participants in that order.
2. Existing Reservoir Committee participating members (with sub-priorities by seniority).
3. Prior Reservoir Committee participating members (with sub-priorities by exit date).

4. Nonparticipants. Priority for new participants outside of Sacramento Valley.

The process for a participant securing a position in the participation queue involves the following steps:

- Participants submit a letter of intent for new or increased participation prior to September 10, 2020 to secure a position in the queue. The letter should acknowledge the potential financial commitment.
- Staff prioritizes requests based on the approved rebalancing priority system and conducts due diligence on the interested party.
- At the September meetings, the Reservoir Committee and Authority Board direct staff to offer capacity to participants in the queue.

Schedule:

The following items will be considered at the Reservoir Committee and Authority Board at their monthly meetings:

- August: Outreach update.
- September: Final participation levels for current members (executed agreements), approval of participation queue, vote to onboard new participants.
- October: Final participation levels for new members (executed agreements), approval of the final Exhibit A to the Participation Agreement, invoices sent for payment.

Prior Action:

July 22, 2020: The Reservoir Committee received a status update on preliminary participation levels, outreach efforts related to maintaining project subscription in Second Amendment to 2019 Reservoir Project Agreement (Amendment 2) and the process of rebalancing participation. Staff notified the Reservoir Committee that outreach was proceeding to priorities two and three.

June 18, 2020: The Reservoir Committee received a status update on preliminary participation levels, outreach efforts related to maintaining project subscription in Second Amendment to 2019 Reservoir Project Agreement (Amendment 2) and the process of rebalancing participation.

May 21, 2020: The Reservoir Committee accepted Exhibit B (2020 and 2021 budget) to the Second Amendment to 2019 Reservoir Project Agreement and directed staff to begin outreach to potential participants based on the proposed priority system to explore interest in Sites capacity, if available.

May 5, 2020: At a Reservoir Committee workshop, staff provided information on changes to the cash call process and schedule in light of potential economic impacts of the COVID-19 natural disaster on participating member agencies. A two-step cash call process including a "Soft Call" and a "Hard Call" will be used to better plan for changes in participation. The due date of the first cash call of \$60/AF will be moved two months out to November 1, 2020. The due date of the second cash call will be moved two months out to April 1, 2021 and will be up to \$40/AF. The Amendment 2 work will still begin on September 1, 2020.

Fiscal Impact/Funding Source:

The total cash call remains unchanged from the approved Amendment 2 work plan in the total amount of \$100/AF. With the Amendment 1B carryover funds it may be possible to reduce the total cash call. However, Staff proposes to keep the first call at \$60/AF and reassess the second call currently projected at \$40/AF midway through the Amendment 2 work. At that time, any adjustments to the second call can be considered based on the then current projections. Participating members can consider the second call to be an “up to” amount since the Amendment 1B carryover represents previously unanticipated funds for the Amendment 2 work plan.
