

This action item summary is being provided to inform the Boards of the follow-up taken to the requests during October's Reservoir Committee and Authority Board meetings.

Action Item	Status
Review the communications budget to ensure that it is an adequate amount. Consider reallocating from other subject areas to accommodate a larger effort in FY23 to communicate on critical subjects (e.g., water rights process, EIR/EIS, field activities, etc.)	Proposed Final 2023 Budget updated to incorporate additional EIR/EIS and water rights outreach and education materials to support communications within participant service areas.
Present flow chart illustrating the expected timing for considering the reimbursement for existing credit balance.	Incorporated into the flowchart presented at the October 2022 Financing Workshop and attached to Item 2-2 of the November RC/AB meeting packet.
For clarity and transparency, review and adjust the Revenue Budget lines to break out the \$2M that went to the option at the end of Amendment 2.	Proposed Final 2023 Budget addresses this comment.
We reviewed prior action items that were outstanding and below is the updated status.	
May 2022 - Create "one-pager" to communicate the significant environmental "net" benefit improvement in the project since 2017. Also incorporate how having Sites in 2022 could help with salmon survival this year.	<p>This is an involved effort because of the various models being used to evaluate effects. We expect to have preliminary results from the UC Santa Cruz work before this product is finalized.</p> <p>This effort is behind schedule and is expected to be completed in mid-December.</p>
