Reservoir Committee Chair Davis made time to consider the submission of the California Endangered Species Act's Construction Incidental Take Permit Application to the California Department of Fish and Wildlife.

Ms. Forsythe provided an overview of the Incidental Take Permit Application – Construction and spoke to the following:

Reminder on Construction ITP Components

- Covering 3 State-listed species:
 - Swainson's hawk.
 - Tricolored blackbird.
 - Giant garter snake.
- Avoid, reduce, then mitigate:
 - Fully mitigate requirements.
 - Compensatory mitigation is necessary for Project (cannot avoid and reduce all impacts).
- Types of mitigation for permanent impacts:
 - Sites-lead off-site habitat acquisition or restoration.
 - Conservation easements.
 - Conservation banks/mitigation banks.
 - On-site opportunistic habitat preservation/restoration.

Financial Assurances Requirement and Purpose

- Financial assurances for mitigation required by CESA:
 - Applicant “ensure adequate funding to implement the measures required and for monitoring compliance with, and effectiveness of, those measures” (Fish & Game Code Section 2081(b)(4))
- Financial assurance that if applicant doesn’t implement mitigation.
 - Goes bankrupt, simply refuses, delays and delays.
- CDFW uses financial assurance to implement the mitigation themselves.

Cost Estimate Developed to Determine Amount of Financial Assurances

- Financial assurance costs were estimated.
 - For the anticipated 10-year term of the permit.
 - Based largely on the detailed cost estimate of relevant conservation measures.
 - Includes all mitigation measures for the permanent impacts to the three Covered Species.
- Endowment costs are above and beyond these costs.
- ITP financial assurance cost estimate = \$128,047,000.
 - Higher than June 2021 mitigation cost estimate for the three Covered Species.
 - Not apples to apples comparison between the 2 estimates.
- CDFW’s standard is to have the cost estimate prepared in a specific way, which results in a more conservative (higher) cost.

Financial Assurance Approach

- Letter of Credit:
 - In place no later than 12 months after issuance of Projects’ water right permit and prior to initiating ground-disturbing activities under the ITP, whichever comes first.
 - Phased over the 10-year construction period.
- Long-term Management Financial Assurances:
 - Typically called an endowment.
 - If needed, Authority will be seeking legislative authority or other means to assure these costs in a manner appropriate for a public agency (other large projects are pursuing also).

Construction ITP Status

- Currently completing the final revisions to the Construction ITP application packet.
- Document expected to be ready for release in the next week or so

Action Requested

- Authorize the Executive Director to submit the Construction ITP application to CDFW.

Discussion followed.

ACTION/RESERVOIR COMMITTEE:

It was moved by Azevedo, seconded by Vanderwaal to authorize the Executive Director to submit the California Endangered Species Act’s (CESA) Construction Incidental Take Permit (ITP) Application to the California Department of Fish and Wildlife (CDFW). Motion carried unanimously.
