

This action item summary is being provided to inform the Boards of the follow-up that has been taken to the requests during August's Reservoir Committee and Authority Board meetings.

Action Item	Status
EIR/EIS – What other review processes will we be in line with? For example; Delta conveyance, reclamation, state boards WQ update, etc. Can we track all of the other processes and see where we fall in place?	Will identify how items interrelate and bring an item to the November RC & AB.
Replace the large poster board map in the maxwell office. Place a copy on the participant portal.	Replaced map in office and posted map in the participant portal.
We reviewed prior action items that were outstanding and below is the updated status.	
May 2022 - Create “one pager” with the intention of communicating the significant environmental “net” benefit improvement in the project since 2017. Also incorporate how having Sites in 2022 could help with salmon survival this year.	This is an involved effort because of the various models being used to evaluate effects. We expect to have preliminary results from the UC Santa Cruz work before this product is finalized. Expected to complete by mid October.
