

Sites Reservoir Construction Contractor Open House Follow Up

The Sites Project Authority would like to thank all the contractors and interested people who attended the Contractor Townhall on June 9, 2022, in Maxwell, California. Additionally, the Authority would like to thank those who signed up for follow-up meetings and provided feedback on how to deliver nearly \$4 billion of critical infrastructure for California.

The feedback received during these sessions proved vital in shaping a Contracting Strategy that the Authority Board adopted on July 27, 2022 (See the Board [Staff Report](#) and [Presentation](#)). The adopted strategy includes nine construction packages of varying sizes with delivery methods best suited to the facilities and the schedule. Authority staff will be developing a program schedule based on this Contracting Strategy for Authority Board adoption later this Fall.

There will be more opportunities for discussions between Authority Staff and contractors in the near future, so please check back on the Contractor Outreach section of the website.

Thank you for your support on this generational infrastructure project!

A handwritten signature in black ink, appearing to read "JP Robinette", with a long horizontal flourish extending to the right.

JP Robinette, PE

Engineering and Construction Manager
