## Organization of Authority and List of Board of Directors December 31, 2022

Sites Project Authority (the Authority) was established on August 26, 2010, when seven regional entities, including several local water agencies and Counties, executed the Joint Exercise of Power Agreement. The primary purpose of the Authority, as stated in the agreement, is to pursue the development and construction of the Sites Reservoir Project, which has long been viewed as an ideal location for additional off stream storage to provide direct and real benefits to instream flows, the Delta ecosystem, and water supply. In keeping their commitment to move the project forward on behalf of the region, the Authority has spent the last twelve years working towards this goal by engaging the public, various stakeholders, state and federal agencies, and landowners, initiating the required environmental planning process, and conducting feasibility studies, among other efforts.

#### **GOVERNING BOARD**

<u>Name</u>	Office	Member Represented
Fritz Durst	Chair	Reclamation District 108
Jeff Sutton	Vice Chair	Tehama-Colusa Canal Authority
Gary Evans	Member	County of Colusa
Ken Hahn	Member	County of Glenn
Logan Dennis	Member	Glenn-Colusa Irrigation District
Gray Allen	Member	Placer County Water Agency
Doug Parker	Member	Westside Water District
Joe Marsh	Member	Colusa County Water District
Jeff Harris	Member	Sacramento County Water Agency
Jamie Traynham	Associate Member - Non-Voting	TC 4 Districts
Greg Johnson	Associate Member - Non-Voting	Western Canal Water District
Don Bader	Cost-Share Partner - Non-Voting	U.S. Bureau of Reclamation
Rob Cooke	Ex-Officio - Non-Voting	CA Department of Water Resources

# **INDEPENDENT AUDITOR'S REPORT**

Board of Directors Sites Project Authority Maxwell, California

### **Report on the Audit of the Financial Statements**

### **Opinions**

We have audited the accompanying financial statements of the governmental activities and each major fund of the Sites Project Authority (the Authority), as of and for the year ended December 31, 2022, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Authority as of December 31, 2022, and the respective changes in financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

### **Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Authority and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Authority 's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Board of Directors Sites Project Authority Maxwell, California

#### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and Government Auditing Standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Authority's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

#### **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 5-9 and 20–22 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial

Board of Directors Sites Project Authority Maxwell, California

statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express.

## **Other Information**

Management is responsible for the other information included in the annual report. The other information comprises the Schedule of Expenditures of Federal Awards, presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards,* but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

# Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated July 14, 2023, on our consideration of the Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Authority's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Authority's internal control over financial reporting and compliance.

## Management's Discussion and Analysis December 31, 2022

The following Management's Discussion and Analysis (MD&A) of activities and financial performance of the Sites Project Authority (the Authority) provides an introduction to the financial statements of the Authority for the year ended December 31, 2022, and a comparison to the prior audited financial statements for the year ended December 31, 2021. We encourage readers to consider the information presented here in conjunction with the transmittal letter in the Introductory Section and with the basic financial statements and related notes, which follow this section.

# Financial Highlights

- The Authority's assets exceed liabilities by \$21,238,805 as of December 31, 2022.
- The Authority's revenues exceeded expenditures by \$8,352,099 for the year ending December 31, 2022. The Authority's largest expense was for professional services. Professional services were 98% of total expenses for the year ending December 31, 2022.

# **Required Financial Statements**

This annual report consists of a series of financial statements. The *Statement of Net Position* and the *Statement of Activities* provide information about the activities and performance of the Authority using accounting methods similar to those used by private sector companies.

The *Statement of Net Position* includes all of the Authority's investments in resources (assets) and the obligations to creditors (liabilities). It also provides the basis for computing a rate of return, evaluating the capital structure of the Authority, and assessing the liquidity and financial flexibility of the Authority. All of the current period's revenue and expenses are accounted for in the *Statement of Activities*. This statement measures the success of the Authority's operations over the past year and can be used to determine if the Authority has successfully recovered all of its costs through its revenues. This statement can also be used to evaluate profitability and credit worthiness.

More detailed information about the Authority's most significant funds – not the Authority as a whole, is provided in the fund financial statements. Funds are accounting devices the Authority uses to keep track of specific sources of funding and spending on particular programs. The *Balance Sheet* for governmental funds presents financial information by fund types showing money left at year-end available for spending. The *Statement of Revenues, Expenditures, and Changes in Fund Balances* for all governmental fund types focuses on how money flows into and out of the various funds.

# Financial Analysis of the Authority

One of the most important questions asked about the Authority finances is, "Is the Authority better off or worse off as a result of this year's activities?" The *Statement of Net Position* and the *Statement of Activities* report information about the Authority in a way that helps answer this question. These statements include all assets and liabilities using the accrual basis of accounting, which is similar to the accounting used by most private sector companies. All of the current year's revenues and expenses are taken into account regardless of when the cash is received or paid.

### Management's Discussion and Analysis December 31, 2022

These two statements report the Authority's net assets and changes in them. You can think of the Authority's net assets – the difference between assets and liabilities – as one way to measure the Authority's financial health or financial position. Over time, increases or decreases in the Authority's net assets are one indicator of whether its financial health is improving or deteriorating. However, one will need to consider other non-financial factors such as changes in economic conditions, population growth, zoning, and new or changed government legislation, such as changes in Federal and State regulations.

### Notes to the Basic Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the basic financial statements.

## Statement of Net Position

As discussed earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the Authority, assets exceeded liabilities by \$21,238,805 and \$12,886,706 as of December 31, 2022 and 2021, respectively.

	2022	2021	Change
Assets			
Cash and investments	\$24,276,372	\$17,226,150	\$ 7,050,222
Other current assets	9,041,717	5,693,555	3,348,162
Total Assets	33,318,089	22,919,705	10,398,384
Liabilities			
Current liabilities	12,079,284	10,032,999	2,046,285
Total Liabilities	12,079,284	10,032,999	2,046,285
Net Position			
Unrestricted	21,238,805	12,886,706	8,352,099
Total Net Position	\$21,238,805	\$12,886,706	\$ 8,352,099

The largest portion, 73% of the Authority's assets, was cash and investments as of December 31, 2022.

Current liabilities increased from \$10,032,999 as of December 31, 2021, to \$12,079,284 as of December 31, 2022, due primarily to an increase in accounts payable.

At the end of fiscal years 2022 and 2021, the Authority showed a positive balance in its unrestricted net position of \$21,238,805 and \$12,886,706, respectively.

## Management's Discussion and Analysis December 31, 2022

## Statement of Activities

	2022	2021	Change	
General Revenues				
Membership Admin/Authority	\$ 505,000	\$ 505,000	\$ -	
Membership - Water	17,850,300	6,654,800	11,195,500	
Grant revenue	14,799,296	14,540,276	259,020	
Interest revenue	131,608	33,445	98,163	
Other revenue	-	50,000	(50,000)	
Total Revenues	33,286,204	21,783,521	11,502,683	
Expenses				
Authority/Admin	531,854	445,881	85,973	
Reservoir	24,402,251	18,510,245	5,892,006	
Total Expenses	24,934,105	18,956,126	5,977,979	
Change in Net Position	\$ 8,352,099	\$ 2,827,395	\$ 5,524,704	

The Statement of Activities shows how the Authority's net position changed during the periods. In the case of the Authority, net position increased by \$8,352,099 for the year ending December 31, 2022, and increased by \$2,827,395 for the year ending December 31, 2021, respectively.

A closer examination of the sources of changes in net position reveals that:

Total revenue increased by \$11,502,683 from the year ending December 31, 2021 to the year ending December 31, 2022, due primarily to the first billing for Phase 2C of \$17,850,300.

Total expenses increased by \$5,977,979 from the year ending December 31, 2021, to the year ending December 31, 2022, to match the Authority's scope of work in 2022. Authority/Admin expenses comprised 2.13% and 2.35% of total expenses for the years ending December 31, 2022 and 2021, respectively. Reservoir expenses comprised 97.87% and 97.65% of total expenses for the years ending December 31, 2022 and 2021, respectively.

# General Fund Budgetary Highlights

The Authority's total budget for the General Fund for the year ended December 31, 2022, showed excess expenditures over revenues of \$0 compared to the actual amount of \$25,830.

	 Actual	 Budget	Va	ariance
Revenues	\$ 506,024	\$ 506,024	\$	-
Operating Expenses	531,854	522,466		9,388
Net Increase	\$ (25,830)	\$ (16,442)	\$	(9,388)

Management's Discussion and Analysis December 31, 2022

# **Conditions Affecting Current Financial Position**

The Authority continues to plan and expand project activities to build the large water infrastructure project. Expanding activities results in a continuation of increases to the annual financial budgets.

The California Water Commission's (CWC) Early Funding Agreement (EFA) with the Authority was approved mid-2019 for the maximum amount payable by the State to not exceed \$40,818,884 for activities reasonably related to the completion of environmental documentation and permitting. In 2021, the Authority processed and received State payments of \$11,486,720 towards the not to exceed amount for eligible activities. In February of 2021, the CWC increased the Maximum Conditional Eligibility Determination to consider inflation. This did not impact the EFA amount. In December of 2021, the CWC determined the Sites Reservoir Project to be feasible and remained eligible for continued funding under the Water Storage Investment Program. In May of 2023, the CWC increased the eligible funding an additional \$2.9 million and continued the funding under the Water Storage Investment Program.

A Federal Financial Assistance Agreement (FAA) with the Authority Pursuant to the Water Infrastructure Improvements for the Nation (WIIN) Act was approved in August 2020 for a maximum amount payable by the Federal Government to not exceed \$3,000,000 for activities to advance work on the Environmental Impact Statement (EIS) and Environmental Impact Report (EIR) for the Project and obtain various permits and regulatory authorizations before beginning project construction for the Sites Reservoir Project. In 2021, the Authority processed and received Federal payment of \$2,341,908 towards the not to exceed amount for eligible activities. In November of 2021, an amendment to this FAA was executed, increasing the not to exceed amount payable by the Federal Government by \$3,554,922 from \$3,000,000 to \$6,554,922. In 2022, the Federal award was exhausted for the activities outlined in the original award agreement. A new Federal award was fully paid as work activities continued to progress on the project. A third Federal award is currently being pursued by the Authorities agents, in an effort to continue funding the Project.

The current phase of the project is anticipated to be completed by December 31, 2024, and is funded through a Participants' cash call and additional received EFA and FAA dollars.

# Future Plans for the Sites Reservoir Project

As an ongoing part of the EFA and FAA funding process, the Authority will continue to prepare and submit invoices for payment on a quarterly basis. As noted above, the Authority is currently pursuing a new FAA for additional WIIN funding. Further, in 2023, the Sites Project Authority submitted an application for a Water Infrastructure Finance and Innovation Act Loan with the Environmental Protection Agency.

The Authority will continue to expand its governance and member participation.

The Authority has developed a detailed work plan and financing plan for the remainder of Phase 2 through December 31, 2024.

The remainder of work in Phase 2 will include key activities such as completing the Final EIR/EIS, complete and obtain key environmental permits and initiate secondary permits for construction and operations, secure water right Order and Permit from the State Water Resources Control Board, complete engineering design to 30% level and, as needed, further facility designs to receive permits and approvals required.

Management's Discussion and Analysis December 31, 2022

# **Requests for Information**

This financial report is designed to provide the Authority's funding sources, customers, stakeholders, and other interested parties with an overview of the Authority's financial operations and financial condition. Should the reader have questions regarding the information included in this report or wish to request additional financial information, please contact the Authority's Treasurer at P.O. Box 517, Maxwell, California 95955 or view the website of the Authority at www.sitesproject.org.

Notes to the Financial Statements December 31, 2022

#### NOTE 1: SIGNIFICANT ACCOUNTING POLICIES

<u>Reporting Entity</u>: Sites Project Authority (the Authority) was established as an independent special agency in August of 2010 under the Joint Exercise of Powers Act, California Government Code, Section 6500.

As of December 31, 2022, 11 public entities, filling 9 Board seats with 2 government agencies serving ex-officio positions and 2 Associate Members, were approved members of the Authority as follows:

Reclamation District 108	Westside Water District
Placer County Water Agency/	Colusa County Water District
City of Roseville	Sacramento County Water Agency/
County of Colusa	City of Sacramento
County of Glenn	California Department of Water Resources
Glenn-Colusa Irrigation District	TC 4 Districts (Associate Member)
Tehama-Colusa Canal Authority	Western Canal Water District (Associate
U. S. Bureau of Reclamation	Member)

The Authority is a public entity special district and, therefore, falls under the reporting guidelines of a special district governmental entity as outlined by the California State Controller's Office. The Authority is governed by a board of directors that consists of one representative of each member.

The Authority was developed with the purpose to effectively study, promote, develop, design, finance, acquire, construct, manage, and operate Sites Reservoir and the related facilities. The purpose of pursuing and developing the Sites Reservoir are to: (a) increase surface water storage and enhance water management flexibility in the Sacramento Valley, (b) provide flood control benefits, (c) improve conditions for fish and wildlife in the Sacramento Valley, (d) improve the operation of the State's water system, and (e) increase opportunities for recreational activities.

<u>Financial Statement Presentation</u>: The *Statement of Net Position* and *Statement of Activities* display information about the primary government (the Authority). These statements include the financial activities of the overall government. These statements report the governmental activities of the Authority, which are normally supported by intergovernmental revenues. The Authority had no business-type activities as of and for the year ended December 31, 2022.

The *Statement of Activities* presents a comparison between direct expenses and program revenues for each function of the Authority's governmental activities. Direct expenses are those that are specifically associated with a program or function and; therefore, are clearly identifiable to a particular function. Program revenues include operating grants. Revenues that are not classified as program revenues are presented instead as general revenues.

Notes to the Financial Statements December 31, 2022

#### NOTE 1: SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Fund financial statements of the Authority are organized into one fund which is considered to be a separate accounting entity. The fund is accounted for by providing a separate set of self-balancing accounts that constitute its assets, liabilities, fund equity, revenues, and expenditures. The Authority reports two funds, the General Fund, which accounts for all revenues and expenditures necessary to carry out the administrative activities of the Authority, and the Reservoir Fund, a special revenue fund used to account for specific work activities for the development of the Sites Reservoir Project and is funded by contributions from the Project Agreement Members.

<u>Basis of Accounting and Measurement Focus</u>: Basis of accounting refers to the point at which revenues or expenditures/expenses are recognized in the accounts and reported in the financial statements. It relates to the timing of the measurements made regardless of the measurement focus applied.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Non-exchange transactions, in which the Authority gives (or receives) value without directly receiving (or giving) equal value in exchange, include grants, entitlements, and donations.

Revenues from grants, entitlements, and donations are recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. Charges for services, operating grants, and use of money and property are accrued when their receipt occurs within sixty days after the end of the accounting period so as to be both measurable and available. Expenditures are generally recorded when a liability is incurred, as under accrual accounting.

<u>Cash</u>: The Authority's cash includes demand deposits. The Authority had no investments during the year ending December 31, 2022.

The governing board has not formally adopted any deposit and investment policies that limits the Authority's allowable deposits or investments and addresses the specific type of risk to which the Authority is exposed.

<u>Due from Other Governments</u>: Amounts due from other governments represent amounts due from member agencies that has been earned but not received by the end of the period.

As of December 31, 2022, the Authority has determined that all amounts are collectable and therefore, no doubtful account allowance was deemed necessary as of December 31, 2022.

Notes to the Financial Statements December 31, 2022

#### NOTE 1: SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

<u>Capital Assets</u>: The Authority defines capital assets as property, plant, equipment, and infrastructure assets with an initial individual cost of \$5,000 and a useful life of three years or more. As of December 31, 2022, the Authority had no capital assets.

<u>Unearned Revenue</u>: This represents amounts received from members that will be applied to future billings.

<u>Revenue</u>: The Authority's revenue is comprised of the following:

General Fund – Authority Revenue

Authority members pay an annual membership fee which is established by the Authority. The membership fee for 2022 was \$55,000 per member.

#### Special Revenue – Reservoir Fund

Revenue is recognized according to the Project's board-approved operating budget for each phase of the Project. The Project Agreement Members are billed in accordance with their pro-rata share of the budgeted costs for activities undertaken pursuant to the Project Agreement.

To withdraw from this Project Agreement, a Project Agreement Member shall give the Authority and other Project Agreement Members written notice of such withdrawal not less than 30 days prior to the withdrawal date. As of the withdrawal date, all rights of participation in this Project Agreement shall cease for the withdrawing Project Agreement Member. The financial obligation as prescribed in the Bylaws' Section 5.10 in effect on the withdrawal date, shall consist of the withdrawing Member's share of the following costs: (a) payment of its share of all non-contract costs incurred prior to the date of the written notice of withdrawal, and (b) those contract costs associated with funds approved.

#### Government-Wide Net Position:

When both restricted and unrestricted resources are available for use, it is the Authority's policy to use restricted resources first, then unrestricted resources as they are needed.

Government-wide net position is reported in three components – net investment in capital assets, restricted, and unrestricted. These classifications are defined as follows:

Net investment in capital assets – This component consists of capital assets, including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

Restricted – This component consists of constraints placed on net position through external constraints imposed by creditors (such as through debt covenants), grantors, contributors, regulations of other governments, or constraints imposed by law through constitutional provisions or enabling legislation.

Notes to the Financial Statements December 31, 2022

### NOTE 1: SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Unrestricted – This component consists of all other net position that does not meet the definition of "restricted" or "net investment in capital assets", as defined above.

<u>Governmental Fund Balance</u>: In the governmental fund financial statements, fund balances are classified as follows:

*Nonspendable* – Amounts that cannot be spent either because they are in a nonspendable form or because they are legally or contractually required to be maintained intact.

*Restricted* – Amounts that can be spent only for specific purposes because of state or federal laws, or externally imposed conditions by grantors or creditors.

*Committed* – Amounts that can be used only for specific purposes determined by formal action of the Authority.

Assigned – Amounts that are designated by the Authority to be used for specific purposes, but are neither restricted nor committed. The board of directors has the authority to assign amounts to be used for specific purposes.

Unassigned – All amounts not included in other spendable classifications.

<u>Estimates</u>: The preparation of financial statements, in conformity with accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

## **NOTE 2: CASH AND INVESTMENTS**

<u>Demand Deposits</u>: The carrying amount and the bank balance of the Authority's cash as of December 31, 2022, were \$24,276,372 and \$24,319,899, respectively. The Federal Deposit Insurance Corporation (FDIC) insures deposits up to \$250,000. As of December 31, 2022, \$24,069,899 was in excess of the insurance coverage.

Custodial credit risk is the risk that in the event of a bank failure, the Authority's deposits may not be returned to it. The California Government Code and the Authority's investment policy do not contain legal or policy requirements limiting exposure to custodial risk for deposits or investments. The California Government Code requires that a bank secures deposits made by state and local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the governmental unit). The market value of the pledged securities in the collateral pool must equal at least 110% of the total amount deposited by public agencies. California law also allows financial institutions to secure the Authority's deposits by pledging first trust deed mortgage notes having a value of 150% of the secured public deposits.

Notes to the Financial Statements December 31, 2022

# NOTE 2: CASH AND INVESTMENTS – CONTINUED

Every account that the Authority has with its bank is either insured through FDIC (through the Demand Deposit Marketplace program) or through the bank's collateralized pool. Every dollar in the Authority's funds is insured by one of the programs or pools.

# NOTE 3: PROFESSIONAL FEES

Professional fees for the year ended December 31, 2022, consisted of the following:

Notes to the Financial Statements December 31, 2022

#### NOTE 4: RISK MANAGEMENT

The Authority is exposed to various risks and general liabilities. The Authority participates in a public entity risk pool as a member of Association of California Water Agencies Joint Powers Insurance Authority (ACWA-JPIA). Each ACWA-JPIA member agency shares surpluses and deficits proportional to their participation. The Authority pays retrospectively rated annual premiums to ACWA-JPIA for its insurance coverage and has met all obligations since participation began.

## NOTE 5: PARTICIPANTS REIMBURSEMENT POLICY

According to the Authority's participants reimbursement policy, the participants who withdrew or decreased their participation in the project are entitled to a credit equal to the contribution they made up to the date of withdrawal or reduction. That credit was applied toward future contribution requirements or booked as a liability on the Authority's books to be paid when it is determined that such reimbursements will not have an adverse impact on the financial viability or overall implementation of the Project. The amount due to participants under the reimbursement policy as of December 31, 2022, was \$9,039,559.

# NOTE 6: COMMITMENTS AND CONTINGENCIES

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies. Any disallowed claims, including amounts already collected, may constitute a liability. The amount of expenditures, if any, which may be disallowed by the grantor, cannot be determined at this time although the Authority expects such amounts, if any, to be immaterial.

The Authority has outstanding contracts related to EIR/EIS and feasibility study. The remaining commitments on these contracts as of December 31, 2022, were minimal as the contracts can be canceled with a thirty-day notice.

## NOTE 7: COVID-19

In January 2020, SARS-CoV-2, the coronavirus responsible for COVID-19, was detected in the United States of America. As a result of this virus, State and Local Health officials established various stay at home and other measures to reduce the spread. To date, the District has not experienced any significant impacts other than the purchase of personal protective equipment, taking additional sanitization measures, and staggering intermittent service times. While the state of emergency expired on February 28, 2023, the long-term impact in the State of California continues to be uncertain.

Notes to the Financial Statements December 31, 2022

#### **NOTE 8: SUBSEQUENT EVENTS**

Management has evaluated subsequent events through July 14, 2023, the date which the financial statements were available to be issued. Based upon this evaluation, three subsequent events occurred that require recognition in the financial statements. The first event is receiving a \$6,900,000 award payment from the Bureau of Reclamation on May 5, 2023. This was tied to Federal Agreement R22AC00670. The second event is that the Authority, through its agents, has been actively pursuing a third Federal Award for work currently taking place. The application has been submitted, but the award has not occurred as of this date. The final event is the award of an additional \$2.9 million dollars on May 17, 2023, to the existing CWC agreement.

Notes to the Required Supplementary Information December 31, 2022

## NOTE 1: BUDGETARY BASIS OF ACCOUNTING

Budgets are prepared on the cash and expenditures or encumbrances basis. Revenues are budgeted in the year receipt is expected; expenditures are budgeted in the year that the applicable warrant requisitions are expected to be issued. The budget and actual financial statements are reported on the above basis, with no material differences between them.

Annual budget requests are submitted by the Authority's staff to the board of directors for preliminary review and approval. After public hearing, a final budget is approved by the board of directors, with a resolution adopting said budget. Copies of the approved budget are sent to all required agencies.

**OTHER REPORTS** 

# INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Board of Directors Sites Project Authority Maxwell, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and the General Fund of Sites Project Authority, as of and for the year ended December 31, 2022, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements, and have issued our report thereon dated July 14, 2023.

# **Report on Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the Authority's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

To the Board of Directors Sites Project Authority Maxwell, California

### **Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Authority's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Fechter & Company Certified Public Accountants

Sacramento, California July 14, 2023

### INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the Board of Directors Sites Project Authority Maxwell, California

# **Report on Compliance for Each Major Federal Program**

## **Opinion on Each Major Federal Program**

We have audited Sites Project Authority's compliance with the types of compliance requirements identified as subject to audit in the *OMB Compliance Supplement* that could have a direct and material effect on each of Sites Project Authority's major federal programs for the year ended December 31, 2022. Sites Project Authority's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, Sites Project Authority complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2022.

## **Basis for Opinion on Each Major Federal Program**

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and the audit requirements of *Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Sites Project Authority and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of Sites Project Authority's compliance with the compliance requirements referred to above.

# **Responsibilities of Management for Compliance**

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to Sites Project Authority's federal programs.

To the Board of Directors Sites Project Authority Maxwell, California

## Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Sites Project Authority's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Sites Project Authority's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Sites Project Authority's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of Sites Project Authority's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Sites Project Authority's internal control over compliance.

Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

## **Report on Internal Control over Compliance**

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, is a deficiency, or a combination of deficiencies, is a deficiency, or a combination of the prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of material weakness in internal control over compliance of a federal program will not be prevented, or detected and corrected, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program will not be prevented is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

To the Board of Directors Sites Project Authority Maxwell, California

## **Report on Internal Control over Compliance**

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Sites Reservoir Project Planning	R20AC00105	15.574	\$ 2,116,402
Sites Joint Powers Authority	R22AC00670	15.574	3,515,134
Total U.S. Department of the Interior			5,631,536
Total Expenditures			\$ 5,631,536

# Notes to the Schedule of Expenditures of Federal Awards December 31, 2022

# **NOTE 1: REPORTING ENTITY**

The accompanying Schedule of Expenditures of Federal Awards presents the activity of all federal awards programs of the Authority. The Authority's reporting entity is defined in Note 1 to the basic financial statements. All federal awards received directly from federal agencies as well as federal awards passed through other government agencies are included in the schedule.

# NOTE 2: BASIS OF ACCOUNTING

For purposes of this report, certain accounting procedures were followed which help illustrate the authorizations and expenditures of the individual programs. The Schedule of Expenditures of Federal Awards is prepared on the accrual basis of accounting. All authorizations represent the total allotments or grant awards received. All expenses and capital outlays are reported as expenditures. Such expenditures are recognized following the cost principles contained in the *Uniform Guidance*, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

Any Federal funds expended in excess of Federal funds received are recorded as a receivable from the grantor agency and any Federal funds received in excess of Federal funds expended are recorded as a payable to the grantor agency.

# NOTE 3: RELATIONSHIP TO FINANCIAL STATEMENTS

The amounts reported in the accompanying Schedule of Expenditures of Federal Awards agree, in all material respects, to amounts reported within the Authority's financial statements. Federal award revenues and expenditures are reported principally in the Authority's financial statements as Reservoir Fund.

# **NOTE 4: LOANS OUTSTANDING WITH CONTINUING COMPLIANCE REQUIREMENT**

No program had federally-funded loans with a continuing compliance requirement outstanding at December 31, 2022.

# **NOTE 5: SUBRECIPIENTS**

The federal programs shown in the accompanying Schedule of Expenditures of Federal Awards had no subrecipients during the year ended December 31, 2022.

# **NOTE 6: INDIRECT COST RATE**

This program provides that the Authority shall receive direct administrative costs in accordance with 2 CFR 200.413 instead of indirect costs under 200.414(f). Since only direct administrative costs are allowable under this grant, the Authority is not eligible for the 10-percent de minimus indirect cost rate under the *Uniform Guidance*.
