Rob..

DEIR/S comment from Lady Bug....

January 11, 2018

Mr. Kevin Spesert
Sites Project Manager
122 Old Hiway 99
Maxwell, Ca 95955

Dear Mr. Spesert.

The following are my questions in how the dam will affect me:

1. How will I reach my home if Mathis does not want me to cross their property from east to west?
2. Why do you need the north end of my property? It is high and won't be covered with water. It will affect my income by further causing me to decrease my herd.
3. Will I be able to use the water to irrigate my lands that are flat?
4. Who will be buying the water for which the Sites Dam is being built?
5. Where in the states budget will the money go?
6. If you put a new road in for me to reach my home, who will maintain it?

Yours truly,

Lady Bug Doherty
