Do you wish to be added to the project mailing list?

YES NO *already am.*

I would like to make the following comment on the Sites Reservoir Project, to be filed in the record:

As owner of 515 ac. of rice ground between Sac. Refuge and Deleron Refuge im concerned of proposed Overhead power lines. The pipeline would go East and West 1 1/2 miles through my property. Having several duck hunting leases on this property, an overhead power line would be a huge hindrance to our leases. Not to mention the waterfowl casualties during fog events. Being in line between Sac. and Deleron R. you are probably going to have problems with bird watchers, hunters, and refuge managers. Serious thought should be given to underground power supply for above reasons.
