

Sites Reservoir is a bad investment

To: EIR-EIS-Comments <eir-eis-comments@sitesproject.org>;

Sites Reservoir will be very costly and provide an insignificant amount of additional water storage. When we consider the construction cost, estimated life of the reservoir, and potential revenue generated by the additional water supplied by Sites Reservoir, the project is a net loss in revenue. This is also known as a BAD investment.

Additionally, the Draft Environmental Impact Report/Statement should be withdrawn to address the environmental impacts of this project on the Sacramento River and San Joaquin Delta.

Sincerely,
Bruno Pitton
