

**Requested Action:**

Reservoir Committee and Authority Board consider acceptance of the Sites Project Authority's Fourth Quarter 2023 Budget Year Quarterly Financial Report.

**Detailed Description/Background:**

This report covers the Q4 2023 budget year quarterly financial report and fulfills the Authority's Budget Policy requirement for a quarterly financial update report to the Reservoir Committee and Authority Board.

Key takeaways of this report include:

- **Revenues** received in Q4 2023 were approximately \$13.2M over the plan. This was primarily due to a previously reported delay in executing a new federal funding agreement, FAA3, resulting in larger than expected accrued expenses which were invoiced for reimbursement in Q4. This increase was expected and accounted for in the approved FY24-25 Budget.
- **Expenses** in Q4 2023 were approximately \$3.1M less than plan. This is primarily due to shifts in the timing of fieldwork. The Amendment 3 Work Plan update, approved in October 2023, reprioritized the near-term geotechnical field investigations to inform value engineering and design progression of the Golden Gate Dam. The investigations that were initially planned for Q4 2023 were postponed to align with the recently adopted overall project schedule. The delay in approval of final EIR/EIS also caused some of the reduction.
- The Authority's Bank Account Balance at the end of Q4 was approximately \$23.3M, representing a net increase of \$3.0M over the reporting period.
- There were five instances of allocating unrestricted contingency funds this period, with reallocations from Program Operations, Engineering, Permitting, and Planning subject areas totaling \$962k. The total unrestricted contingency balance, cumulative of all subject areas, at the end of Q4 was approximately \$2.7M. Staff are allocating contingency to supplement budget for new work scope in accordance with the Board's delegation of authority.
- Contract activity during this period includes:
  - No new contracts were issued during this period.

- Eight amendments were issued, resulting in no change to the overall approved 2023 budget. Four amendments required an allocation of unrestricted contingency for additional scope. Four amendments resulted in no budget change (i.e. reallocating budget within approved task order budget).

**Prior Authority Board Action:**

November 2023: Approved the Q3 2023 Financial Report.

**Fiscal Impact/Funding Source:**

There are sufficient funds in the approved Amendment 3 work plan to continue financial reporting. A cash balance at the end of 2023 was estimated to be \$24.7M at the time of the revised work plan (October 2023). With nearly all 2023 expenses now received, an update to the estimated cash balance to start 2024 is \$23.0M resulting in a reduction of anticipated carryover funds from 2023 to 2024 of \$1.7M. Latest expense estimates through the remainder of the work plan are \$77.4M and revenue estimates are \$75.9M, including carryover funds. Staff is evaluating options to balance our budget for the remainder of the work plan, should they be necessary, to be discussed at the semi-annual work plan check-in scheduled for the July 2024.

Cash Flow - Amendment 3 (figures x \$1,000)

Graph includes projected budget and revenue from updated Work Plan 11/2022. Cash flow for 2024 & 2025 has been superseded by Work Plan Update approved at the 10/2023 Board meeting. The cash flow curve will be updated for the Q1/2024 Financial report to reflected revised work plan as approved in 10/2023 and updated in 12/2023.
